DISTRIBUTION

[illegible]

SOURCE Airfield at Miskolc

1. The radio station at the field is identified with Radio Moscow throughout Europe. About 1500 meters north of this station, there is another which was originally Hungarian, then German, and is now part of the Russian war machine. This station is very powerful.

Airfield at Sopron

2. The airfield, which is about ten kilometers or less east of the town, is 100 meters in length and 450 meters in width. It has been built by the Russians in the past few months on the site of a pre-war riding school. After the war, the Russians had used it for armed vehicle maneuvers.
3. Three months ago the Russians cleared the zone, saying that it would become farm land, and began digging. They then changed the cleared land into an airfield. They have widened the road between Sopron and the field and made it fit for motor traffic.
4. There is a powerful radio station on the field with high-speed automatic transmission.

This document contains information affecting the national defense of the United States within the meaning of the Espionage Act, 50, U.S.C. 31 and 32 as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.
